

To whom it may concern,

Remy Kaloustian worked at Codelitt between 03/16/2018 - 07/23/2019. While with us, he used both his outstanding front end and back end development skills to work on a few Rails and React projects. Remy is a great developer for many reasons. He is proud of his work and ensures it is built in the best possible quality. Remy also has an impressive ability to receive feedback and promptly work on it to improve himself. He is also easy to work with and a collaborative team player.

Additionally, Remy is very proactive and makes sure to convey any potential roadblocks as soon as possible. If you have any additional questions, please feel free to contact me.

Best regards

Kaio Magalhaes, Chief Technical Officer at Codelitt
